DINA LIVOLSI, D.C.

Doctor of Chiropractic Certified by and Member of American Veterinary Chiropractic Association

CHIROPRACTIC EXAMINATION & TREATMENT CONSENT FORM, AND CLIENT VERIFICATION OF CONCURRENT TRADITIONAL VETERINARY CARE

I, _____, owner of the animal described below, do understand, substantiate and authorize the following:

- 1) Dr. Dina LiVolsi is a Doctor of Chiropractic, licensed in the care of humans. She has attended several hundred hours of education specific to Animal Chiropractic, and is a member of the American Veterinary Chiropractic Association.
- 2) Dr. Dina LiVolsi IS NOT a veterinarian, and cannot take responsibility for the primary care of my animal.
- 3) Chiropractic care is not intended to replace traditional veterinary care, but it is to be used concurrently and in conjunction with my veterinarian's care.
- 4) I understand that there is minimal research supporting the clinical efficacy of Animal Chiropractic, and that some aspects of my animal's care may be used in future research data.
- 5) Dr. LiVolsi has explained to me the scope of her care and described the procedures she will perform on my animal. I understand them and acknowledge that they agree with the American Veterinary Medical Association's (AVMA) description of animal chiropractic as follows:
"Veterinary chiropractic is the examination, diagnosis, and treatment of non-human animals through manipulation and adjustments of specific joints and cranial structures... [Veterinary chiropractic DOES NOT] include dispensing medication, performing surgery, injecting medications, recommending supplements, or replacing traditional veterinary care... The assurance of education in veterinary chiropractic is central to the ability of the veterinary profession to provide this service...some areas of the country do not have an adequate supply of veterinarians educated in veterinary chiropractic. Therefore, it is recommended that, where the state's practice act permit, licensed chiropractors educated in veterinary chiropractic be allowed to practice this modality under the supervision of, or referral by, a licensed veterinarian who is providing concurrent care."
- 6) Dr. Dina LiVolsi has explained the risks involved with animal chiropractic care to my satisfaction, and I realize that there can be no guarantee as to the nature of my animal's condition or the outcome of any procedure.

I hereby authorize **Dr. Dina LiVolsi**, Doctor of Chiropractic, to treat my animal with animal chiropractic. I certify that my animal has had regular, traditional veterinary care, and is now concurrently being treated by:

Veterinarian _____ Phone # _____

I also certify that I have been open and honest with Dr. LiVolsi as to any and all other examinations, diagnostic tests, diagnoses, and treatments for my animal's conditions. I have read this authorization form, understand it, and give my consent for treatment.
